

## **NOTICE OF OUTDOOR WATER CONSERVATION EFFECTIVE 2015**

Highland City's pressurized irrigation (PI) system and the high quality water it supplies is a valuable resource for residents. The City's primary water source for the PI system is the American Fork River and water from Deer Creek Reservoir. These sources of water will be limited as we are entering a very low water year due to the inadequate snowfall this past winter. Highland City is encouraging water conservation efforts to allow sufficient water throughout the spring and summer to all residents. Typically, our community over waters lawns 50% more than necessary.

It is necessary for all residents to conserve water wherever possible to avoid any mandatory watering restrictions. In order to accomplish this, we are asking that you follow these voluntary guidelines to help conserve water:

- Watering Days according to the following schedule:
  - \* Even Numbered Street Address: Monday, Wednesday, and Friday
  - \* Odd Numbered Street Address: Tuesday, Thursday, and Saturday
  - \* No Sunday Residential Watering, allowing the storage facilities to fill.
- Limit of Hours: Recommended watering between the hours of 6:00 p.m. - 10:00 a.m.
- Prepare lawn and yard by taking the following conservation measures:
  - \* Water deeper and less frequently
  - \* Mulch around outdoor plants and shrubs
  - \* Raise the lawn mower to retain moisture near grass roots
  - \* Provide recommended fertilizer to lawns
  - \* Spot water dry spots with a hose versus running a sprinkler cycle
- Adjust sprinkler timers through the year and do your part to conserve water by turning off sprinklers after rain storms. The chart below provides guidelines for lawn watering rates as provided by the State Division of Water Resources for spray type heads.

<b>April</b>	<b>May</b>	<b>June</b>	<b>July</b>	<b>August</b>	<b>September</b>
Minimal	10 min	14 min	14 min	14 min	7 min

- Manage Runoff: Adjust sprinklers to water lawns, flowers, and gardens. Avoid excessive flow and runoff onto sidewalks and streets.

Through proper utilization and conservation of our precious water resources all residents will have sufficient water through the year.

For questions or conservation recommendations, please contact the City Offices at (801) 756-5751 or visit our web site [www.hIGHLANDCITY.org](http://www.hIGHLANDCITY.org) for links to water conservation.
