## Highland City Citizen Survey

As you have noticed, we have included a citizen survey as a part of this newsletter. We would greatly appreciate you taking the time to fill it out for us. Gathering resident opinions is invaluable to us as we make decisions for the City.

There are only 16 questions. The survey should take you no longer than 5-10 minutes to complete. Your responses WILL NOT be individually tracked and all data collected will be analyzed as a whole. To get it back to us, simply include it with your utility payment or drop it by City Hall. You can also take the same survey through a link on our website – [www.highlandcity.org](http://www.highlandcity.org).

If you have any questions or concerns about the survey, please contact Erin Wells at 801-772-4566.

## Utility Rate Study

Over the past year, Highland City has made an effort to better understand the true cost of utility services and make sure that we are taking into consideration everything that goes into operating our culinary water, pressurized irrigation, sewer, and storm drain systems. As a part of this process, we have created master plans and maintenance plans and updated our impact fees.

Our next step is to conduct a Utility Rate Study to see if our utility fees are in line with the cost of providing the service. The City Council recently contracted with Zions Bank Financial Services to conduct this study and they are underway in this process.

One of the things City Council asked staff to look at as a part of this study is whether additional fees should be charged to Highland homes in the northwest zone of our city (essentially north of 11800 North) to compensate for the added costs related to pumping water to those homes.

We will keep you updated through the newsletter and social media as this process goes along. Also be sure to plan on coming to our Budget Open House as well as any additional public meetings that will be scheduled. If you have any questions, please don't hesitate to reach out to us.

## Winter Snow Removal & Plowing

During the winter months it is important for Highland residents and the City to work together during snow removal weather. During heavy snow storms it can take as much as 48 hours to clear all priority routes and through streets once the storm has subsided. Parking on the street and objects in the road (trailers, basketball standards, etc.) makes it difficult for plows to clear the streets. It is unlawful to park any motor vehicles upon city streets from December 1st to March 31st between the hours of 12:00 a.m. to 8:00 a.m. and any time snow is present so as to provide access to snow plows for snow removal. The Police Department may issue a parking citation.

Many people use four wheelers to plow their drive ways and sidewalks; the Police Department reminds you that four wheelers are not allowed on the street unless they are street legal.

Residents may view a copy of Highland City's snowplow frequently asked questions on the Public Works page at [www.highlandcity.org](http://www.highlandcity.org). If you have any concerns you may call Public Works at 801-772-4515. To report parking violations, please call the Police Department at 801-756-9800.

Works at 801-772-4523 for assistance. This simple tip can help all of us and save you money.

## A Glimpse into Highlands Past

The Highland Historical Society features articles each month to highlight individuals in Highland who have made an impact to the community. This month's article, is about John & Sarah Ann Thirkell Poole.

John & Sarah Ann Thirkell Poole were early homesteaders and the first to build a home in Highland. They were both born in England and immigrated to America as converts to the LDS Church. The Poole family was among the first to move to Nauvoo in 1840. Thirkells came to New Orleans then to Council Bluffs. Both families settled in Grantsville, Utah, where they were neighbors and the two married in 1854. For the next twenty years they lived in Weber County then in Salt Lake City. They moved to Highland in 1874 with nine children. Their home was built in 1875 close to the center of his 160 acre homestead at the Northeast corner of 10400 N and 6000 W, near the Lehi ditch. The home was built of adobe with lumber on the inside of the walls and was said to be approximately 11 feet by 14 feet while other accounts say it had two bedrooms. Four more children were born to the Poole's after their move to Highland so it would have been pretty crowded in any case.

For more information on the Poole's or more information about Highland's History and to view full articles, please visit the Historical Society page found under the Events Department at [www.highlandcity.org](http://www.highlandcity.org).
