

HIGHLAND CITY

Fiscal Year 2020 Budget: Public Safety Funding

For years, Highland Council and staff have worked hard to properly serve our growing community while keeping the property tax rate flat. At the same time, inflation and growth have eaten away at our revenue making our dollars stretch less far. This year, Lone Peak Police and Fire Departments are asking Highland City for a combined increase of nearly \$690,000 to their budgets. The increases they are asking for are not extravagant wants. Rather, they are to allow our Police and Fire Departments to provide the proper level of service and to recruit and retain quality emergency responders. City Council is planning on a property tax increase OR creating a new fee to raise the additional revenue that would be dedicated to Fire and Police services. Either method would equate to about \$146.80 per year or \$12.50 per month for the average Highland home. If the property tax method was selected, the City would be 18% of the total property tax bill paid by residents and this would be a 36% increase of that rate. So far at the Open Houses the City has held, residents have overall been supportive of the funding increase and split on their preferred method. The final budget will come to Council on June 18. If the fee option is decided, it will be voted on at that time. If the property tax option is chosen, it will not be voted on until August 6. You can see more information at http://bit.ly/HC_FY20Budget or call 801-756-5751. The numbers discussed above are estimates based off of the best information we have today. Some adjustment may occur before the final decision; however we anticipate those changes to be minor.

Mayor's Message

"The man who is calm has his course in life clearly marked on his chart. His hand is ever on the helm. Storm, fog, night, tempest, danger, hidden reefs—he is ever prepared and ready for them. He is made calm and serene by the realization that in these crises of his voyage he needs a clear mind and a cool head; ..." —William George Jordan, The Majesty of Calmness, 1898.

Summer hopefully begins on June 21. It has been a cold and unusually wet spring. City staff have been preparing for potential flood issues. They've reached out to local church leaders and school district staff so that volunteers can be quickly organized, sandbags have been prepped and put on pallets, etc. If you notice ditches, streams, or canal grates that are blocked by debris, let city staff know. If you see anyone dumping grass clippings or yard waste in or near ditches or streams please let them know this can cause serious flooding issues. Also, helping keep debris from entering storm drains and filling detention basins will help limit flooding potential. Please be aware that as water flows increase ditches, rivers, and normally dry stream beds can become dangerous. Members of our community, both youth and old have died in canals and ditches. Thankfully it has been a long time and we hope it never happens again.

We are so appreciative of those of you who are proactive in helping the city be prepared for potential issues and I am personally appreciative our staff who quietly prepare for eventualities like floods so that we can respond with a *clear mind and a cool head* to crisis of the moment.

Council Brief

In each month's newsletter we give a brief overview of some stand-out items from Council meetings. For full agendas, minutes, & audio, visit <http://bit.ly/HC-agendas>.

May 7

Councilmember Kurt Ostler updated the Council on a meeting he and Mayor Mann held with the post office relative to Highland getting our own zip code. The post office has a set of criteria based mostly on number of households that cities have to meet in order to qualify to receive their own zip code. Highland does not and will not meet any of the requirements. Based on growth patterns, it is more likely we will someday combine zip codes with Alpine City and American Fork will absorb all of 84003.

May 21

City Council approved contracts for the 2019 road preservation projects. See the article below for more information.

City Council approved the Planned Development project of Fairfield Cove consisting of retail and a maximum of 6 single family homes. The project is on 2.85 acres at approximately 10272 N 4800 W.

The Council also approved the rezone of the Developmental Center Property (land south of LPHS) to a Planned Development with retail and a maximum of 699 living units. The development will be called Ridgeview. The subdivision plans are expected to come to Planning Commission and Council late summer or early fall and construction would begin this winter. More information at <http://bit.ly/HC-develop-projects>.

2019 Road Projects

The City will shortly begin work on our annual road reconstruction and preservation projects including two collector roads. Those who travel 6400 West from 10400 North to 11000 North (SR-92) and 6000 West from 9600 North to 10150 North may wish to find alternate routes during the summer months. Road preservation work including patching, crack seal, and seal coat treatments will also occur at various locations throughout Highland. Construction will begin June 1 and continue to August 15. See <http://bit.ly/HC-road> for more information.

Cemetery Fees Increasing

On July 1, 2019, cemetery lot prices will increase by 3%. That means residential burial rights will be \$1,076 and non-residential burial rights will be \$1,502. Opening and closing fees will remain the same. If you are considering a lot purchase, are in need of burial arrangements, or a headstone placement, please call Cindy Quick, City Recorder, at (801) 772-4505.

Outdoor Watering Restrictions

Please remember the following watering restrictions:

- Water between 6:00 PM and 10:00 AM
- Even addresses – water Monday, Wednesday, & Friday. Odd addresses – water Tuesday, Thursday, & Saturday
- Station watering time limited to 30 minutes
- No excessive water runoff

Violation of restrictions will result in penalties including written warnings, fines, and service locks. These restrictions are important to help our system operate properly as well as save water for future years when we don't receive a large snowpack. If you have any questions, please contact us at 801-756-5751.

Highland City Cemetery Cleanup

Highland City seeks to offer families and friends that visit their loved ones resting in the cemetery a clean, beautiful, and peaceful environment. Please help us with this goal by keeping your site clean. The next cemetery decoration cleanup and removal will be on Monday, June 10. All perishable items will be discarded and all trinkets, shepherd-crooks, etc. will be removed and put in a storage facility on site. Items can be claimed Thursday, June 13 from 8:00 AM—5:00 PM. Afterwards they will be discarded. For questions, please call 801-772-4515.

Spring Runoff

With the additional snow pack in the mountains this year, we are anticipating high water levels in the ditches and streams that run through our City. Runoff will depend on the weather and how quickly temperatures climb. Please be aware of high water dangers and keep children and pets away from the water's edge. Water levels can change dramatically in a flood situation with little or no warning. Please be alert and call our office if you see a problem developing. Highland City also has sand bags available for purchase at \$0.20 per bag at City Hall. Call 801-772-4515 for details.

Public Hearing—Pressurized Irrigation Enterprise Fund

Tuesday, June 18, 7:00 PM at Highland City Hall

The General Fund pays the Pressurized Irrigation Fund \$108,000 per year to water the approximately 190 acres of parks, park strip grass, and vegetation owned by the City. It is proposed that the Pressurized Irrigation Fund do a transfer of funds back into the General Fund in the amount of \$108,000 to make the General Fund whole for this cost. The purpose of this hearing is to notify the public of this proposal. The \$108,000 represents 4.7% of the Fiscal Year 2019-2020 budgeted expenses of the Pressurized Irrigation Fund.
