## Mayor's Message - Kurt Ostler

As I was reviewing all the Resident Survey responses from the Fall of 2024, I noticed several comments regarding concerns about traffic speeding and traffic safety issues throughout the city.

Highland City has been actively addressing traffic speed concerns through various initiatives:

- **Traffic Calming Tool Box:** The city has developed a manual that outlines possible traffic calming measures. The manual gives the City Council various recommendations on how to address different traffic measures. Another option the City Council has instituted enables residents to self report traffic concerns proactively and, by paying a small application fee, request the city evaluate the traffic concerns in their specific neighborhood area and have the city study possible mitigation options, if warranted.
- **Speed Tables on Canal Boulevard:** To address speeding on Canal Boulevard, the city installed temporary speed tables. A survey revealed that approximately 85% of respondents preferred their removal. Despite a small speed reduction achieved, the city is considering alternative traffic calming measures based on the feedback received. The City Council is looking at other alternatives for Canal Boulevard, which will be discussed over the next couple of City Council meetings.

To address general speeding concerns, the City Councils in both Highland and Alpine have requested that Lone Peak Police step up traffic enforcement. I thought the following graph might be of interest pertaining to the increased traffic citations, specifically in 2024.

Yearly Traffic Citation Data

As the Mayor and City Council, please know we are committed to addressing traffic speed concerns and enhancing road safety for our residents.

**January 7th, 2025**

- **Lot Combination Zoning:** The City Council passed an ordinance regarding lot combinations. The City will treat approved combinations of property as a single property for zoning purposes.
- **New City-Owned Land Rate:** The City Council adopted the 2025 rate of \$4.93/sq ft as the value of orphan parcels and other City-owned land.
- **Water Supply Protection:** The City Council amended the Municipal Code regarding the regulation of cross connections between culinary and pressurized irrigation water. The ordinance aims to protect our water supply by preventing contamination through cross-connections and backflow.

**How to Prevent Backflow** Backflow is the unwanted reversal of water flow in a plumbing system. It can allow contaminants into the culinary/drinking water system and can be a serious health hazard. Places where backflow is most commonly found are:

- **Hose bibs** (the outdoor hose connection usually found on the exterior of your residence)
- **Frost-free taps** (also known as a freeze-proof faucet, commonly used to fill water troughs, water gardens, etc.)

Some low-cost solutions to prevent backflow is the installation of a hose bib vacuum breaker (HBVB). This can be easily performed by homeowners for between \$5-\$40. HBVB's are a great way to protect against contamination happening through your various hoses.

**Youth Council Update** Highland City Youth Council had an enriching day at the State Capitol for Local Officials Day. The event featured breakfast, networking with other councils, and an exclusive tour with Council Member Kim Rodela.

*Utah Local Officials Day Luncheon*

A mock committee debate at the Salt Palace Convention Center allowed members to contribute their insights, followed by a luncheon where they heard from Mayor Walker (Draper), Lt. Governor Henderson, and Jennie Taylor, making for a fantastic day at the State Capitol.

## Planning Commission Openings

The Planning Commission is an advisory board that makes recommendations to City Council, balancing public and private interests, overseeing land use and more.

There are currently openings for Commissioners. Apply by February 10th by filling out the Volunteer Interest Form at <https://bit.ly/4gh40q3>.

## Highland City Cemetery Clean-up - Monday, March 3, 2025

Highland City seeks to offer families and friends that visit their loved ones resting in the cemetery a clean, beautiful, and peaceful environment. Please help us with this goal by keeping your site clean.

On Monday, March 3rd, the cemetery will be cleared of ALL grave decorations, real or artificial, including trinkets, ornaments, lamps, shepherd hooks, etc. Decorations which appear to be of a more permanent nature may be placed in the cemetery maintenance building located on the southeast corner of the cemetery. Those items left unclaimed after one week will be discarded.

Please make every effort to remove decorations from your loved one's grave prior to the cleanup, as there is no guarantee that they will be saved. For questions, or to schedule an appointment to retrieve your decorations, please call (801) 772-4505.

Cemetery cleanups are held on the 1st Monday in March, the 2nd Monday in June, the 1st Monday in October, and the 1st Monday in December.

Gary Paulsen wrote, "Reading for me is spending time with a friend." Come to the book sale and find dozens of new friends, maybe even a new best friend. Then share these new friends with all of your old friends. All proceeds go directly to support library programs.

## Winter Volunteer Opportunity

Community Action Services and Bank is in need of volunteers to help at our local warming shelter and to bring in donations.

These warming shelters provide warmth and safety to our unsheltered community every night during the winter. But to keep them open, we need more volunteers. Even a few hours of your time can make a big difference.

Together, let's keep our community warm and supported through the cold months ahead. Thank you for being willing to help make a difference! Sign up to volunteer here: [app.vomo.org/opportunity/warming-center](http://app.vomo.org/opportunity/warming-center).

**Street Parking** From December 1 to March 31, you **cannot park on the street** between **12:00 a.m. and 8:00 a.m.**, or whenever it snows. This rule helps snow plows clear the roads.

If you park on the street during a snowstorm or right after, the **Police Department** may give you a ticket or tow your car. Streets blocked by parked cars or other items will not be cleared until everything is moved.

Other items that should be moved include **basketball hoops, trailers, and trash cans**. These can be dangerous for drivers and get in the way of snow removal. Thank you for helping keep our streets safe!

## Report a Concern
