Highland City

Mayor's Message - Kurt Ostler

If you've noticed dry patches along parkways or in our City parks recently—you're not alone. Many residents have reached out, and as your Mayor and City Council, we've seen conditions firsthand. Alongside City staff, we've met with the Parks Department to understand the situation and potential solutions. Over the past month, the Parks Department has shared updates on the steps being taken.

So, what's going on?

According to our Parks staff, an early heat wave in June arrived faster than expected, catching much of the region by surprise. With over 1,700 sprinkler zones to adjust, transitioning from spring to summer watering schedules wasn't an overnight process. This delay in shifting irrigation clock timing led to some of the dry areas you may have seen. In addition, clock battery failures and issues with Lone Peak area water pumps contributed to the problem.

Although we started the season with 102% of average snowfall, the rapid warm-up caused snowpack to run off earlier than usual. This significantly reduced water flow from American Fork Canyon, which now sits at just 63% of typical flow. The early switch to Murdock Canal water also brought more sediment and debris, requiring frequent cleaning of pressurized irrigation filters—something many residents may be experiencing with their own systems.

With this in mind, I wanted to highlight the extensive work our dedicated Parks staff accomplishes each week.

Highland City's Parks Department includes six full-time staff and 30 seasonal summer workers. Key roles include a splash pad supervisor, two irrigation specialists for sprinkler maintenance, and a repair technician for fountains, docks, and graffiti cleanup.

The City oversees over 10,200 sprinkler heads in 1,700 zones. In 2024, 640 heads were replaced, and 5,200 pressurized irrigation meters have been installed in the past two years. With current water flow at 63% of normal, residents are encouraged to water only on recommended days.

Crews maintain 184 acres of turf, with each employee covering about 13 acres weekly—over 83 football fields. Highland Cemetery alone has 97 zones and takes 12 staff nearly five hours to mow. The City maintains 27 parks, 18 playgrounds, ten pavilions, eight pickleball courts, and one convertible tennis court. Highland Glen Park spans 75 acres with a three-acre pond. The new Highland Family Park (17 acres) is set to open in mid-August and features water-wise landscaping.

Highland City has been a Tree City USA community for 27 years. We maintain over 5,000 public trees, replacing 50–100 annually, with care provided by two certified arborists.

I want to thank our Parks Department for their dedication and hard work, and express my appreciation to the residents of Highland for your continued support as we work together to keep our City beautiful, water-efficient, and thriving. Our parks and open spaces are among Highland's most cherished amenities, and are one of the key reasons many of us chose to make Highland our home.

Water Conservation Notice

This past winter did not deliver the snowpack we had hoped for, and as a result, the City's pressurized irrigation (PI) system is already nearing capacity—well before the hottest weeks of the year.

To avoid exceeding system capacity, the City is asking all residents to use their sprinkler systems wisely and avoid overwatering. Recently installed water meters are a valuable tool for monitoring usage. If you haven't yet accessed your water use portal, visit <https://www.highlandpimeters.com> to sign up for an account.

If you notice brown spots or dry areas in your yard, try cleaning your sprinkler filter or spot-watering those areas instead of running a full sprinkler cycle.

Thank you for doing your part to conserve water!

Friends of the Library When Donna Cardon was hired as Library Director in 2018, the Friends of the Library bonded with her immediately. She listened to the Library Board, City Council, and other community organizations. She decided she wanted the library to be the happy face of the City, where patrons could spend time with family and friends.

Donna wanted many library events during the year. She wanted to encourage reading. She made it all happen. The Friends have loved her willingness to devote herself to the library and allow them to help. So why don't we have a happy face today? Donna is leaving, but we'll all be smiling when we remember all she's done.

Highland Fling

Don't forget to join us for this year's Highland Fling from Thursday, July 31st to Saturday, August 2nd.

Event details are posted on the Highland City website at highlandcityfling.com.

Highland Historical Society

Celebrating 150 years of community history, immerse yourself in Highland's past at the Highland Fling! Look for fascinating historical facts woven into the parade and encourage children to embark on a historical trivia scavenger hunt for a small prize at the Historical Society museum booth.

The Highland Historical Society and the Highland Arts Council will join forces to create the [Highland Center for the Arts and Heritage](#). This center will feature:

- An **interactive, family-friendly historical museum** that brings our past to life.
- An **auditorium and stage** for captivating theater productions and musical performances.
- **Practice space** for the music groups.
- An **art gallery** showcasing local artistic talent.
- Versatile **classrooms** to serve a diverse range of interests for all ages.
- Dedicated **activities and programs for our cherished senior population**.

This is more than just a building; it's a legacy we're creating together. To ensure the center truly reflects our community, **we need your voice as we plan and raise the funds needed.**

Get involved by contacting Claudia Sudweeks (Historical Society: 801-602-8394, highlandhistoricalsoc@gmail.com) or Shauna Larson (Arts Council: 801-891-7183, shaunaholt@live.com). Keep an eye on our announcements for info sessions where you can share ideas and help shape this project. Let's work together to build a Center for the Arts and Heritage that will inspire, educate, and entertain for generations to come.
